Diseñando sintetizadores digitales

Jorge Vélez www.jorgevelez.net

Enero 2023

Presentación

- Quién eres.
- Qué háces.
- Cuáles son los instrumentos que mas te gustan y qué tienen de especial.
- Porqué te quieres complicar la vida diseñando un sintetizador.
- Hasta dónde has llegado en el diseño/creacion de sintetizadores.
- Qué te falta entender para poder hacer lo que quieres.

Porqué digital

"Certainly. Technology has come a long way since I designed the Prophet-5 in 1977," he explains. "We take advantage of that. The sweet spot depends on the instrument design. Sometimes we use a digital oscillator or wavetable oscillator, sometimes VCOs, sometimes a mix. The most critical part is the filter; we always use analogue filters. Other controls like modulation, LFOs, and envelopes are best done digitally these days, for many reasons."

-Dave Smith-

Porqué el M4 Express

- Económico (24dlls).
- Potente 20% superior a MI Plaits en velocidad, Flash y RAM.
- Incluye DAC x2
- · Tiene herramienta gráfica de diseño
- Intercambiable con Teensy en código.

CONS:

- Necesita adaptaciones.
- Ruido base si no usas DAC externo.
- Solo 4 pines PWM.

Qué es ProtoSonus

Es una PGB con un layout genérico especial para prototipar instrumentos musicales.

Alternativas / Qué sigue

- Teensy
- Daisy Seed
- · OpenSource/Mutable instruments

Sonido

Frecuencia Amplitud

Compresión Rarificación

Armónicos y resonancia

FFT

Los sonidos se pueden descomponer en un arreglo de ondas senoidales. Lo que significa que se puede reconstruir un sonido igualmente, con ondas senoidales

Síntesis

Se acuña "sintetizador" RCA Electronic Music Synthesizer Mark I

Moog y Buchla Wendy Carlos Rhythm Ace FR-1 de Ikutaro Kakehashi

What we will do today

- Add topics that will be discussed during the meeting
- Example 1: Company priorities
- Example 2: Ideas for key topics at team level
- Example 3: Team objectives and key results

Identify strategic topics

Instructions

- 1. List topics and themes you think your team should focus on. These can be larger customer problems you want to tackle, results you want to achieve, strategic initiatives, etc.
- Vote to identify the top 3 topics.
